Totals and notes

Total materials: £1,846.36 including VAT. With a standard 1000 x 700 mm tray instead of the made-to-measure one, the total drops to £1,530.32.

	Amount (£)
Fixtures and fittings (items 1–12)	1,465.83
Building and plumbing materials (items 13–36)	380.53
Total materials, incl. VAT	**1,846.36**
Total with standard 1000 x 700 mm tray (item 2 replaced, see note)	1,530.32

Shower tray size. The recess is 630 mm wide at most, and no retailer stocks a standard tray narrower than 700 mm. Item 2 is therefore a cut-to-size tray trimmed to 1000 x 600 mm (£505.99). If the recess can be built 70 mm wider during the works, the standard Aurora 1000 x 700 mm anti-slip stone tray at £189.95 fits and saves £316.04.

Lower-cost alternatives. The items below can be swapped to reduce the total by £296.55 (excluding the tray).

Other notes.

- The sliding door adjusts between 950 and 990 mm, so the recess opening will be built to that width. A side panel is not needed when the recess is closed with the plywood wall.
- Prices were checked online on 11 October 2026 and change with retailer promotions. Each link should be re-checked on the day of purchase. Victorian Plumbing delivers free on orders over £499.
- Not included: WC, tiles, tile adhesive and grout, paint, and labour.
