36	Plasterboard screws 3.5 x 38 mm, box of 1000	Easydrive Plasterboard Screw 3.5 x 38 mm B&Q	**1**

SHOWER TRAY

The shower recess is 630 mm wide at most, and no standard tray is narrower than 700 mm. Item 2 is therefore cut to size (1000 x 600 mm). If the recess can be built 70 mm wider during the works, a standard 1000 x 700 mm tray fits instead and costs considerably less. We will confirm this with you on site before ordering.

NOTES

- The sliding door adjusts between 950 and 990 mm, so the recess opening will be built to that width. No side panel is needed because the recess is closed with the plywood wall.
- Products are from Victorian Plumbing, B&Q, Screwfix and Wickes. If an item is out of stock on the day, we will replace it with an equivalent of the same or better specification and let you know.
- Not included in this list: WC, tiles, tile adhesive and grout, and paint.
